

Dear Friends of Kingfisher Bay Retreat,

It's hard to believe that it is already June. The beauty of creation all around us continues to surprise and amaze us and sometimes seems a stark contrast with the daily struggle that so many in our world face. I am repeatedly aware of the privilege that affords me to be here and pray that we will find ways for Kingfisher Bay Retreat to work towards healing and wholeness in our world. We are excitedly preparing to open our doors again after nearly 3 months. We miss you all. Some adjustments are being made to ensure that we are able to share this beautiful space safely and in compliance with all Provincial and regional health guidelines. Plans are fluid, as you can imagine, but we are happy to open soon. This month we will be adding two small kitchenettes to rooms above the garage to increase capacity for personal retreats and single family usage. We are asking guests to sign a COVID screening questionnaire before arrival. In addition we will also need to put some items away to make sanitizing possible and ask guests to bring their own blankets for the beds. Not to worry, Kingfisher will still have everything you need and be as welcoming as always. We will be flexible where we are able so please let us know your needs.

For the summer we will continue to rent longer in accordance with the guidelines. (minimum of 5 days. ) Normally our summer is full and but since most of our guests have rebooked we have some openings beginning July 1)

The lodge (9 bedrooms) can be booked all together or the space above the garage including a small kitchenette can be booked separately. Either are a minimum of 5 night stay in the summer.

If you know anyone who is interested in a longer booking please let me know. We are exploring options and are constantly praying about how to best use this beautiful place in such difficult times. I am happy for any input you may have.

As we await ongoing new directives, we hope to be able to answer questions of group retreats that are booked for Summer and Fall. We are more than eager to be able to accommodate your groups as well as provide space for personal retreats. Day use of grounds and cabin are also an option when available. Coaching and other support will also be available.

Please contact myself or Katelyn if you have any questions or would like to discuss options.

Know that many of your faces cross my mind as I wander through the forest or paddle on the bay. Thank you again for your ongoing prayers and support. I look forward to seeing you all face to face in the near future.

With gratitude and love from our family at Kingfisher,

Terry
